THE PACIFIC TELEPHONE and TELEGRAPH COMPANY

LONG DISTANCE SERVICE

To place Long Distance calls give the operator the city or town, the telephone number you are calling, if you have it, or the name and address under which it is listed. The operator will ask for your number when she needs it to complete the call.

STATION CALLS—When you will talk with anyone who answers the called telephone.

PERSON CALLS—When you want to talk to a particular person or a particular extension telephone connected through a private switchboard, give the operator the name, extension or department after you have given the distant city and telephone number.

COLLECT CALLS—Upon request, the charges on calls to most points within the Continental United States, Alaska, Canada and to certain overseas points may be collected at the called telephone. Collect calls take the regular Station or Person rates except that higher Station collect call rates apply where the Station rates are 20 cents or less on calls within Oregon or 25 cents or less on calls outside of Oregon.

RATES TO SOME OUT-OF-TOWN POINTS

(Rates to Points Not Listed May Be Obtained By Calling "Long Distance" or Dialing "Operator")

NIGHT AND SUNDAY RATES APPLY FROM 6 P. M. TO 4:30 A. M. AND ALL DAY SUNDAY

The Federal Tax is not included in the rates.

Rates are for an initial period of 3 minutes, except that on Station calls of 10 cents to points within Oregon the initial period is 5 minutes and on Station calls of 25 cents or less to points outside of Oregon the initial period is 4 minutes.

TIME OF DAY..... (The charge for "Time of Day" is the same as the charge at your regular rate for any other local call.)	Time	Operator.....

PERSONAL TELEPHONE LIST

[illegible]

BUSINESS OFFICE LOCATION

The Business Office of the Company is located at 410 Ave. A, Seaside, Oregon. The Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturday.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save your time if you have your bill with you. When paying by mail, please enclose the bill stub with your check. If you need additional assistance or explanation regarding your bill, the Business Office will be glad to help you.

OTHER PAYMENT OFFICES

In addition to the Business Office at 410 Ave. A, Seaside, bills may be paid in person at the following location:

Dennon'sCannon Beach

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ERRORS

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

DIAL SERVICE

LOCAL CALLS

Do not start to dial until you hear the dial tone—a steady hum which is heard when the equipment is ready to receive your call.

Dial carefully. Do not hurry or retard the dial.

Dial only the figures of the listed number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

CANNON BEACH—If you have Two or Four Party Line service, DIAL "Operator" to obtain assistance.

If you have Ten Party Suburban Service, DIAL the desired number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

VOICE RECORDING SIGNAL

A short high "beep" tone heard on the telephone about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

A favorite shopping center ...your Classified Directory

Every day countless thousands of telephone users turn to the Classified Directory to find the names of business firms who make things, sell things, do things. They know that it's the convenient way to reach the people they want, *when they want them.*

And the people who make things, who sell things, who do things know that the most efficient and economical way to reach these potential customers is through the yellow pages of the Classified Directory.

Wise business people everywhere take advantage of this selective, low-cost advertising medium. For further information, call our nearest Business Office.

The Pacific Telephone and Telegraph Company

Building your dream home soon?

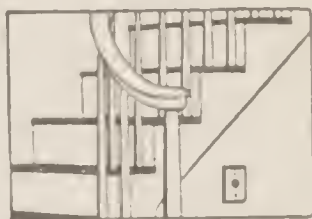

Don't forget to plan ahead for concealed telephone wiring

Whether you'll want only one or a number of telephones, the time to plan for built-in concealed wire facilities is when your home is still in the blueprint stage.

For then you can be certain you won't later have to tear up part of your flooring or bring the wire in along the baseboard.

So decide in advance on convenient locations, and specify that conduit be installed during construction. This provides a metal tube through which wires may be drawn when your telephone is installed.

Our Architects' and Builders' Service will help you in every way possible at no charge.

The Pacific Telephone and Telegraph Company

Aunt Ellie says...

"good neighbors share the party-line, too"

"Land sakes—how I do enjoy seeing good neighbors getting along together... whether sharing homemade apple pie or the party-line telephone! Being a courteous telephone user is a mighty good habit..."

party-line pointers

Space your calls instead of making a whole series of them.

If your party-line neighbor asks you for the line to make an emergency call, it's thoughtful to hang up... and call back later.

If you are calling from a dial telephone, always make certain the line is clear before you dial.

When the children use the telephone, ask them to be considerate, too.

Replace the telephone carefully when you finish your call.

Thank you!

ducts or services they
require.**

Make it point your way!

**LIST EACH BRANCH OF
YOUR BUSINESS HERE**

New convenience in telephones...

Colored telephones—New beauty to match your decorating plans. Choice of Ivory, Green, Red, Gray, Beige, Brown, Yellow, or Blue. Attractive two-tones: Ivory, Green, Gray, or Red, with Black hand-piece, number plate and dial.

Outdoor extension bells. With cut-off switch if desired. Just the thing for Western living. Gives a clear signal you can hear when you're gardening, lounging on the patio, cooking outdoors — just about any place where you're out of earshot of the telephone.

A portable telephone you can move to any point in the house, workshop or patio. All you do is plug it into a convenient telephone jack. Nominal installation charge for jacks. Regular extension rate for the telephone.

AND THEY'RE ALL SURPRISINGLY LOW IN PRICE. TO ORDER, JUST CALL YOUR
PACIFIC TELEPHONE BUSINESS OFFICE.

Telephones designed for every need

Wall telephones—especially convenient in the kitchen or laundry. Note the spring cord. It extends to a full four feet—coils into neat short spiral when not in use. Spring cords available for all telephones.

Extension telephones for modern living. Once you have a "step saver" in the kitchen, laundry, bedroom, or workshop, you'll wonder how you managed to get along without it. In larger homes you'll want more than one extension. They can be portable.

For the hard-of-hearing—a telephone with built-in amplifier and "Boost" volume control. Easy to operate. Permits the hard-of-hearing to carry on a normal telephone conversation. For home or business.

YOU'LL BE SURPRISED HOW LITTLE THESE EXTRA TELEPHONE CONVENIENCES COST.
TO ORDER, SIMPLY CALL YOUR PACIFIC TELEPHONE BUSINESS OFFICE.

How to get the most out of your telephone service

It's wise (and thoughtful) to follow these simple golden rules for good telephone service:

- Encourage the youngsters to be considerate telephone users...and you won't miss important calls.
- Give the person you're calling plenty of time to answer...at least a full minute...and you'll reach him more often.
- Be sure that the line is free before making a call when you're on a party-line.
- Look up any numbers you're not sure of and...keep personal lists up-to-date.

Saves time...

to look up numbers before you call

You'll get numbers right the first time if you look up those there's some question about. Telephone numbers have a way of getting twisted when you rely on memory alone. So, if there's any doubt, look up the number. Thank you.

If you call by number
You'll have faster long distance service

You'll have faster long distance service if you give the operator the out-of-town telephone number you are calling, rather than just the name and address. That way, you see, you won't have to wait while she gets the number from "Information" in the distant town you're calling. You'll save time . . . and calling by number means better service for everyone, especially now when long distance lines are carrying so many important industrial and military calls.

this free booklet

. . . for your local and out-of-town telephone numbers is yours for the asking. Just call, send a postcard or drop in to any Pacific Telephone business office for your free copy.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Please look up the number in the Telephone Directory if you are not sure of it.

You'll get quicker dial service if you follow these simple steps:

1. Listen for the dial tone. It's your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Lift your finger and let the dial return naturally, without forcing.

Behind on orders? Let handy Classified introduce the suppliers you need. It's fast. It's convenient. Wise buyers say there's nothing like the Yellow Pages of your telephone book for getting in touch with almost everyone around who sells things, fixes things, does things. Try Classified once . . . you'll use it often.

Party-Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone, always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.

You'll get quicker dial service if
you follow these simple steps:

1. Listen for the dial tone. It's your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Lift your finger and let the dial return naturally, without forcing.

Telephone men in all parts at the Bell System have had long experience in working together. Tools, equipment, methods at tackling the job and the "language of the business" are the same north or south, east or west. This nation-wide unity of method and spirit means a telephone service of the utmost dependability.

Telephones designed for every need

Extension telephones for modern living. Once you have a "step saver" in the kitchen—laundry—bedroom—or workshop, you'll wonder how you managed to get along without it. In larger homes, you'll want more than one extension. They can be portable.

Wall telephones—especially convenient in the kitchen or laundry. Note the spring cord. It extends to a full four feet—coils into neat, short spiral when not in use. Spring cords available for all telephones.

For the hard-of-hearing—a telephone with built-in amplifier and adjustable volume control. Easy to operate. Perfect for the hard-of-hearing. To carry on a normal telephone conversation. For home or business.

YOU'LL BE SURPRISED HOW LITTLE THESE EXTRA TELEPHONE CONVENIENCES COST. TO ORDER, SIMPLY CALL YOUR PACIFIC TELEPHONE BUSINESS OFFICE.

*How to make
good telephone service
even better....*

*You'll save time if you always
keep these simple points in mind when
you make telephone calls*

1 Look up any number you're not sure of in **your** latest directory . . . before you make your call.

2 Jot the number down . . . so you'll have it conveniently before you as you call.

3 Dial carefully . . . keeping your eye on the dial.

Pacific Telephone

How to help yourself to good telephone service

- Give the person you're calling plenty of time to answer—at least a full minute...and you'll reach him more often.
- Encourage the youngsters to be considerate telephone users...and you won't miss important calls.
- Wait a few minutes between calls if you're on a party-line...good party-line neighbors get better party-line service.
- Unless you're sure of your number, look it up before you call. It's also wise to keep personal lists up-to-date.

Nothing's finer than a Good Neighbor *...and that goes for a telephone party line*

Just as a good neighbor on your street is always thoughtful and helpful . . .

So does a good telephone party line neighbor cooperate with you in telephone usage.

Here are a few of the ways to make sure you are a good neighbor on your party line:

- Make sure the line is not in use before you try to call.
- If you find the line busy when you have to make an urgent call, politely explain the circumstances to the person using the line. Extend the same courtesy to others you expect yourself under like conditions.
- Talk no longer than necessary; allow time between calls so that others may have a chance to use the line.
- Answer promptly when your telephone rings; always replace the receiver when you have finished using the line.

Careful observance of these points assures more satisfaction and better service on your telephone party line.

The Pacific Telephone and Telegraph Company

extension telephones are so handy yet cost so little

*For only a few pennies a day you can enjoy the
convenience of an extra telephone in your home.*

*Extensions go almost anywhere in the home—in the bedroom or
basement . . . in the den, kitchen, or garage . . . wherever you
spend a lot of time. And the cost is small . . .*

*only pennies a day. We can offer this service again
because extensions require only additional telephone sets,
not outside cables and central office facilities.*

*To order your extension, just call your
Pacific Telephone Business Office.*

Pacific Telephone

*How to make
good telephone service
even better...*

You won't miss important calls

when you answer promptly. When you have only two cards left to play in an exciting grand slam hand—or in any situation where you'd like to say "Wait a minute!"—it's always a temptation not to answer the telephone immediately. The person calling, though, doesn't know what you're doing and may hang up, thinking you are not at home. That way you may miss important calls.

So, next time your telephone rings, won't you try to answer as quickly as you can?

and ask for
MARINE
OPERATOR

TIME OF DAY.....Time.....Operator

(The charge for "Time of Day" is the same as the charge at your regular rate for any other local call.)

PERSONAL TELEPHONE LIST

[illegible]

BUSINESS OFFICE LOCATION

The Business Office of the Company is located at 470 Commercial St., Astoria, Oregon. The Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturday.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save your time if you have your bill with you. When paying by mail, please enclose the bill stub with your check. If you need additional assistance or explanation regarding your bill, the Business Office will be glad to help you.

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ERRORS

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

SHIP TELEPHONE SERVICE

This service provides two-way telephone communication between a telephone on land and a ship equipped with a radio telephone or between ships when within range of any one of six Telephone Company Pacific Coast Shore Stations. To make a call from a telephone on land call "Long Distance" or dial "Operator" and ask for "Marine Operator" and tell her you wish to place a call to a ship, giving her the name of the ship and its approximate location.

DIAL SERVICE

LOCAL CALLS

Do not start to dial until you hear the dial tone—a steady hum which is heard when the equipment is ready to receive your call.

Dial carefully. Do not hurry or retard the dial.

Dial only the figures of the listed number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

WARRENTON—Telephone numbers of other customers on your line will have the same first three figures as your telephone number. To call another party on your line, dial "9", then the last figure of your own number and then the last figure of the desired party's number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

VOICE RECORDING SIGNAL

A short high "beep" tone heard on the telephone about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

Please make sure it's the right number

It's surprising how one's memory will play pranks and cause one to say, for example, "1621" for "1261."

Please consult the directory first.

This is particularly desirable when there has lately been a new issue of the telephone directory.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

When you dial

numbers which include a central office name

Please remember...

Always dial the first two letters and the numeral in the central office name...followed by the remaining figures in the number.

extension telephones now available for your home

*For just pennies a day you can enjoy the
convenience of an extra telephone.*

*Extensions are handy so many places. In the breakfast nook or
basement . . . in bedrooms, the den, or garage . . . in any part of
your home where you spend a lot of time,
an extension is a time-saver and step-saver. We can offer this
service again because extensions require only additional
telephone sets, not outside cables and central office facilities.*

*To order your extension, just call your
Pacific Telephone Business Office.*

Pacific Telephone

Cowboy Clem

...figures that folks who share party-lines will all get the most from their service if they'll remember this round-up of party-line rules...

a round-up of party-line rules

Space your calls instead of making a whole series of them... and talk only as long as necessary.

If yours is an emergency call, and the line is in use, explain the circumstances to the person using the line.

If you are calling from a dial telephone, always make certain the line is clear before you dial.

When the children use the telephone, ask them to be considerate, too.

Replace the receiver properly when you finish your call.

Thank you!

*How to make
good telephone service
even better....*

Give your friends time to answer

How often have you had someone hang up just as you answered the telephone? It isn't always possible, you know, to get to the telephone the moment it rings—the folks you are calling may be out enjoying their garden, or busy in some distant part of the house. You'll reach them more often . . . and avoid the disappointment of an incomplected call if you give them a *full minute* to answer.

Pacific Telephone

Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

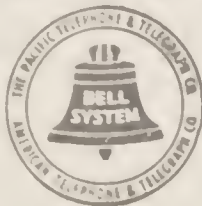

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain an Architects' and Builders' Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

*How to make
good telephone service
even better...*

*You'll save time if you
look up numbers before you call*

Have you ever had the feeling that you're *not quite sure* of a familiar telephone number you're about to call?

Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is it 3189? The best way to settle it is to look up numbers *before* you call. You'll save time—and avoid the delay and embarrassment of having a stranger answer if your memory tricks you into getting an incorrect number.
